Chicago, IL, 60657

Master Information Technology Engineer with 3 years of experience in Front-End Development looking for opportunities and experiences for professional and personal growth. Proficient in various technologies, including JavaScript, React, Next.js, Node, CSS3, and HTML5.

EXPERIENCE

Front-End Developer

University of Belgrade, Belgrade, Serbia

October 2022 – September 2024

- Developed and maintained the E-business department (eLab) website using HTML, CSS, and JavaScript, ensuring a user-friendly interface for over 5,000 students and faculty members.
- Developed the FONcast podcast website prototype, which supported the department's recruitment efforts and contributed to a measurable increase in web traffic and student interest.
- Collaborated on code reviews and debugging for multiple university projects, helping improve development speed and reduce bugs in production.

Shift Manager

Starbucks, Chicago, IL

February 2020 – September 2022

- Assisted in managing daily store operations and ensured compliance with safety and security policies.
- Supervised inventory management and cash handling processes, ensuring accurate stock levels and secure financial transactions across daily operations.
- Coordinated training programs for new associates, streamlining onboarding and reducing training time by approximately 20%, leading to faster productivity.

Web Designer and Web Journalist

Tango Six Group, Belgrade, Serbia

November 2018 – January 2020

- Designed and maintained the company website, achieving the highest viewership in the aviation media sector.
- Created and published daily news, reports, and interviews on WordPress, contributing to a significant increase in site traffic and user engagement.
- Led digital marketing initiatives, including website management, social media, advertising, and SEO, resulting in a 35% increase in website traffic.

Teaching Assistant (TA)

University of Belgrade, Belgrade, Serbia

October 2017 – September 2018

- Delivered lectures and organized courses on Media Systems of Serbia and Radio Journalism, enhancing students' understanding of local media landscapes and communication techniques.
- Actively participated in faculty seminars and conferences, presenting research findings and facilitating discussions that enriched academic perspectives within the department.
- Led in-depth research on media systems and radio journalism, contributing to the development of academic publications and enhancing course curriculum with up-to-date, relevant content.

EDUCATION

MSc in Software Engineering and E-business

University of Belgrade, Faculty of Organizational Sciences

October 2022 – September 2023

MA in Journalism

University of Belgrade, Faculty of Political Sciences

October 2017 – September 2019

BA in Journalism

University of Belgrade, Faculty of Political Sciences

October 2013 – September 2017
